Vol. 5 No. 2

With the winter season in full swing, we remind staff, faculty, and students how the university's operational status is communicated during inclement weather. Operational status may include delayed openings, closures, or any other schedule changes, due to inclement weather. - Managing project resources, including people
- Managing project risk
- Initiating a project
- Identifying and managing stakeholders
- Identifying requirements and deliverables
- Developing a project plan
- Building a project schedule
- Assigning resources to tasks
- Understanding the critical path
- Running the project
- Managing teams
- Monitoring performance
- Closing a project

American Heart Month

Heart disease is the leading cause of death for men and women in the United States. Heart disease causes 1 in 4 deaths.

The good news? Heart disease can often be prevented when people make healthy choices and manage their health conditions. Communities, health professionals, and families can work together to create opportunities for people to make healthier choices.

Make a difference in your community: Spread the word about strategies for preventing heart disease and encourage people to live heart-healthy lives.

How can American Heart Month make a difference?

We can use this month to raise awareness about heart disease and how people can prevent it — both at home and in the community.

You can make healthy changes to lower your risk of developing heart disease. Controlling and preventing risk factors is also important for people who already have heart disease. To lower your risk:

- Watch your weight.
- Quit smoking and stay away from secondhand smoke.
- Control your cholesterol and blood pressure.
- If you drink alcohol, drink only in moderation.
- Get active and eat healthily.
- Use spices to season food instead of salt.

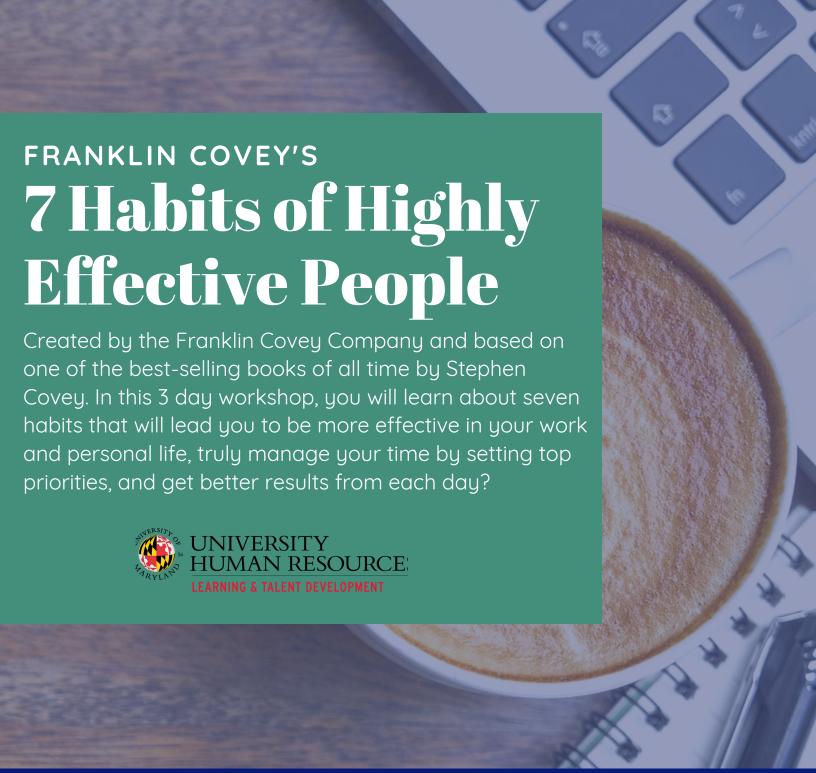

Teen Dating Violence Awareness Month

February is Teen Dating Violence Awareness Month. There's a lot you can do as a parent to prevent teen dating violence and abuse.

About 1 in 10 teens who have been on a date have also been physically abused by a boyfriend or girlfriend in the last year. One of the most important things you can do is keep the lines of communication open with your kids.

Take steps to make a difference:

- Be a role model treat your kids and others with respect.
- Start talking to your kids about healthy relationships early – before they start dating.
- Get involved with efforts to prevent dating violence at your teen's school.
- If you are worried about your teen, call the loveis respect helpline at 1-866-331-9474 or text "loveis" to 22522.
